About Me

I am a hardworking and dedicated student with a strong passion for learning and self-improvement. I put consistent effort in developing my skills and gaining knowledge in my field of interest. I am responsible, adaptable, and capable of working effectively both independently and in a team. I aspire to grow professionally while contributing positively to an organization.

Education

Mohan Babu University , B.Tech CSE(AIML)	Sept 2023 – Pursuing
• CGPA: 8.98/10.0	
Amaravati Junior College , Board of Intermediate	Sep 2021 – May 2023
• Percentage: 92.8	
ViswaBharathi English Medium High School , Board of Secondary Education	June 2020 – April 2021
• Percentage: 100	

Experience

Software Development Intern , Infosys Springboard	Aug 2025 – Oct 2025
• Built a conversational IVR middleware with speech-to-text, text-to-speech and multilingual support • Implemented intent-based routing for ACS and BAP workflows, automation and user efficiency. • Integrated Web Speech API, its pipeline and robust logging for reliability and faster task execution. • Developed intelligent intent recognition system with keyword-based detection routing queries to appropriate services, supporting banking operations like balance checks, bill payments, and agent transfers	

Projects

Learning Management System (LMS)

- Implemented authentication, course management, enrollment, assignments and grading features.
- Developed a full-stack LMS using React.js and Node.js with dedicated student and teacher role management.
- Designed easy-to-use interfaces with modern design, smooth interactions, and error-free performance for all users.

Waste Sorting Assistant

- Implemented material detection algorithm with high accuracy for recyclable materials and Built privacy-first solution with in-memory processing and no data storage.
- Created interactive web interface using Streamlit for real-time image analysis and Designed user-friendly UI with recycling guidance and multi-language support.
- Engineered heuristic-based classification using brightness, colorfulness, and RGB analysis.

Technologies

Languages: Java, Python, JavaScript.

Frontend: HTML, CSS, Bootstrap.

Database: MySQL.

Development Tools: Git, GitHub, VS code.

Certifications

- Artificial Intelligence Primer-Infosys Springboard
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional-Oracle
- Principles of Generative AI Certification-Infosys Springboard.
